

The Goals of the Dental Hygiene Forum

- ◇ To support the clinician's ability to participate in the treatment of a larger variety of clinical cases
- ◇ To create a greater degree of comfort in the management of more complex treatment plans
- ◇ To provide an opportunity to meet informally, with fellow hygienists in an atmosphere which supports professional growth and development
- ◇ To earn required Continuing Education Credits

The Dental Hygienist plays the leading role in the assessment of gingival inflammation and treatment of periodontal disease in the most progressive dental practices. To be effective it is imperative that one have access to the most current scientific information and the latest technology. It is with this in mind that the Dental Hygiene Forum has been founded. The Dental Hygiene Forum was created to provide a leading edge continuing education and professional networking opportunity.
